

1st International Conference on Light-Matter-Interactions at Interfaces

September 23-27, 2024
Institute of Physics
Rostock, Germany

LiMatI 2024

Topics

- » Extreme nonlinear optics
- » Attosecond physics
- » Near-field enhancements
- » Strong-field electron emission
- » Synthetic light-matter systems
- » Topological photonics
- » Excitons in 2D hetero- and nanostructures

Confirmed Invited Speakers

Michael Bauer (CAU Kiel)
Christoph Bostedt (PSI)
Francesca Calegari (DESY Hamburg)
Andrés Castellanoz-Gómez (CSIC Madrid)
Nirit Dudovich (Weizmann Institute)
Markus Gräfe (University of Darmstadt)
Stefanie Gräfe (University of Jena)
Rupert Huber (University of Regensburg)
Mack Kira (University of Michigan)
Christoph Lienau (University of Oldenburg)
Marco Ornigotto (Tampere University)
Kai Rossnagel (DESY Hamburg/CAU Kiel)
Sangeeta Sharma (MBI Berlin)
Ursula Wurstbauer (University of Münster)
